WHEELS OF BABYLON

## 1. VIOLENCE, ACT 5

Hammer in his hand  
He breaks the human skulls  
Decapitation follows  
Finally he drinks all their blood

Brutal violence!  
Fucking yes!  
Oh, sweet violence!

## 2. WHEELS

Those walls seem like they're falling over  
But yet you keep on coming back

Back in routine again  
Always the same old, always the same  
The Babylon's wheels are gonna make you break

So quit, you fucking piece of shit  
And make your life worth living here

## 3. VÄÄJÄÄMÄTTÖMÄÄN ITSEMURHAAN

Rokkaruokaa ja pillereitä  
Se länsimainen maailmankuva  
Hyvävointi on illuusio  
Työtä tee tai kuole pois

Minä hetkenä kaikki meni pieleen?  
Missä vaiheessa sairastuimme?  
Ahneuteen, rahan valtaan  
Materiaan, tuotemerkeihin

## 4. NOT TOO HARD

Six strings and an ugly face  
Ten more with so much hair  
The fucking drums pound through your head  
So watch the show

It's not too hard  
Just making noise and having fun  
That's where you start  
It's not too hard  
Distorted riffs and primal rage  
D-beat or blast

## 5. START BREATHING

Trusting in faith  
In God or in money  
Needless to say  
They are drunk with their power  
Endless crusades  
In the name of the saviour  
And what did they gain?  
A lifetime in chains

Afraid of all decisions you'd have to make yourself  
Afraid to have the normal responsibilities  
Afraid of life  
Afraid of death  
Afraid of everything

Is it really the fear of God or just the fear to breathe on your own?  
'Gos we start breathing when we stop believing  
We start breathing when we stop believing  
We start breathing when we stop believing

## 6. BREAK AWAY

Dark desert  
Heavy tripping  
Need to get away  
From the chains of life

When the life is pain for me  
When the life is pain for you  
Let us break away  
Away from the rat-race

Train moving  
Lucid dreaming  
Going somewhere far  
Where we can be free

## 7. VALHEET

Pitä sydämesi kinni  
Älä päästä sanojasi saastuttamaan  
Sulje petollinen suusi  
Siellä valheet odottavat hetkeään

Sinua kaultasi opin kuinka vihataan  
Sinua kaultasi opin kuinka kaadutaan

Etkö muista kuinka pyysin  
Älä luule olevasi oikeassa  
Nyt puren hampaitani yhteen  
Käsi ayrkkiiin puristuu ja huudaa taas

En kestä luunnella pastaa  
Jota suustasi löyhkäten vahnau taas

## 8. DO IT AGAIN

Have you done as I said?  
And how many have you raped?  
Have you pleased your God again?

Victims of your molestation will never be the same  
But church and state will understand  
Come on and do it again!

You say it's not your fault  
It is me who commands your cock  
Which you use to ruin their lives

You should do it  
Church and state will understand  
You should do it

We really need another rape  
I think you should violate another human body  
Yes I think you should do it  
Yes I think you should do it  
Yes I think you should violate another sacred human body
